Proudly celebrating

... art installations inspired by books, paper & print through the streets of Claremont

## HELOISE AND KIRSTEN

### Western Australia

Heloise and Kirsten met at art school in their teens and share a deep desire to form works that consider human endeavour.

Heloise uses her practice to present narratives that explore the philosophical study of everyday life within contemporary society, and Kirsten's work utilises materials to capture human presence and evoke childhood memories.

**OFF THE PAGE ARTWORK:**

“Humble Shadows” is set in the elegant window of Ricarda. An installation that presents memories and stories from local history, each ‘ghost’ represents a life past, mapping a journey through paper, print and stitch. The dresses, created by the use of recycled patterns are imbued with the tales of specific women that have contributed to the fabric of Claremont life and infer both the presence and absence of the women, as shadows from the past continue to contribute to shape our present.

**YOU'LL FIND IT @ [RICARDA](https://www.ricarda.com/)**
